On the publication of the Integrated Report 2021

The Toyo Ink Group has published CSR reports summarizing our environmental and CSR initiatives and other reports. Previously, we also disclosed financial information via securities reports, our Fact Book, financial statements, supplemental data for results briefings and other materials. This time, we have published this Integrated Report as our new report for sharing the Toyo Ink Group's management plans, business strategies, and activities including its CSR activities and value provision, in an integrated manner to provide a comprehensive picture of the Toyo Ink Group to all stakeholders. We will be happy if this report enables you to understand how we are sustainably increasing the corporate value of the Toyo Ink Group, the value we will provide to society, and the management strategies and corporate activities we implement to achieve the above.

We have compiled our business and CSR activities into the Integrated Report 2021 with a focus on the value creation stories of the Toyo Ink Group based on this year being the first fiscal year of the SIC-II medium-term management plan, which is the second phase of Scientific Innovation Chain 2027 (SIC27), our long-term corporate vision. In the editing of the Integrated Report, which we plan to publish annually, we will remain committed to the continued evolution of the report to ensure that each report we provide better fulfills your needs.
