Make lamination solvent-free

ECOAD® Smart

Solutions for solvent-free lamination process
ECOAD® Smart

- **Designed for ease of use**
- **Grades for light packaging, boil and retort applications**

1. Reduce workload and simplify handling

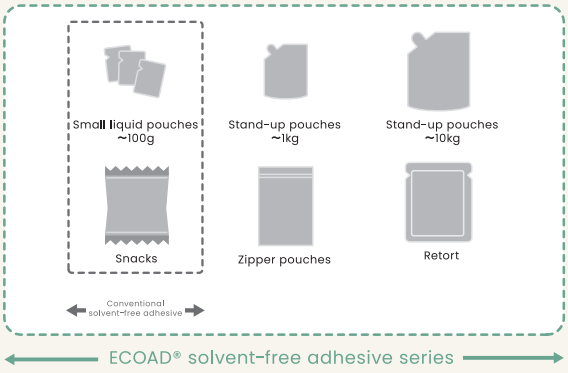

ECOAD® Smart

- Stable processing
- Drum supply
- Application range
- Initial appearance ◎
- Continuous lamination
- Fast cure

2. Expand application possibilities

- Replace solvent-based lamination
- Zero VOC emissions for safer operation

TOYO-MORTON solvent-free adhesives serve a wide range of applications

Product examples

1 For transparent retort packaging A solvent-free option	2 Designed for better appearance Grade for light packaging	3 Proven in many applications Grade for light packaging Track record No.1
In development EA-N6800 series	In development EA-N6000 series	EA-N373A/EA-N373B EA-N6173 (biomass-based design)
• Excellent retort performance • High cohesion provides strong resistance to tunneling	• Excellent appearance with PET/VM • Stable mixing and coating	• Excellent appearance with OPP/VM • High cohesion provides strong resistance to tunneling
